Production

We print the products using FDM technology in our own 3D printing studio in Wieluń, on Bambu Lab printers. The Seller is the manufacturer of the prints within the meaning of product safety legislation. The manufacturer's details and safety warnings are given on the product page.

Some catalogue products are prints inspired by popular culture. These are unofficial products: they are not affiliated with, or authorised by, the owners of the rights to the characters and brands that inspired them. Names and trade marks belong to their respective owners.
